

A NEW ERA IN GROUNDWATER PROTECTION BEGINS

REGIONAL WATER RECLAMATION FACILITY **GROUND BREAKING**

Please join us as we kick off this important project to advance MSWD's work as a Groundwater Guardian and protect the water supply for generations to come.

Friday, June 10, 2022 | 8 a.m.

19999 Little Morongo Road, Desert Hot Springs

Funded primarily by grants and low-interest loans, the Regional Water Reclamation Facility will treat an additional 1.5 million gallons of wastewater per day. The expanded capacity will allow more homes currently using a septic tank system to connect. The facility will also support the addition of tertiary treatment in the future, which would provide recycled water to enhance water conservation efforts.

PLEASE RSVP BY
JUNE 1, 2022, TO
