PERMIT NO. _____ (if applicable or note if this is an initial inspection) Initial _____

Property Owner's Name: _____

-Address: _____

-Phone Number: _____

Facility User's Name _____

-Address: _____

-Phone Number: _____

Facility Address: _____

Business Name: _____

Permit Expiration Date: _____

(Renewal of permit requires submittal of a new Sewer Interceptor Waste Discharge Application at least 10 days prior to expiration of the current permit)

Permit Special Conditions (Normal practice will require at least one annual inspection and/or cleaning observed by a District Representative. More frequent testing/cleaning/inspection as determined by the District shall be listed here or as directed by a District representative. This Permit requires that an Annual Report be submitted to the District by January 15 of each calendar year:

Purpose of onsite facility or treatment unit (i.e., grease trap, sand trap, etc.):

Description and location of onsite facilities (i.e., size and type of interceptor or treatment unit and the location of same at the permitted facility):

Description of Inspection and/or Maintenance Activity (pumping)

NOTE: Use the **Interceptor Checklist** for new facilities (initial determination visit) and attach with this Inspection Form. A once per year inspection is included in the annual Permit fee (additional inspection fees apply for re-inspections or multiple inspections per year). The initial "determination of facilities" inspection visit is free of charge. If a fee is due for re-inspection or multiple visit(s), provide a copy of this report to finance and request an invoice be sent to the responsible party.

Inspected by _____ **Date** _____ **Fee Due** _____
(District representative) (see NOTE: above)
